

What is Movement Bikes?

Movement Bikes is a new organization that will distribute durable bicycles in the developing world. We believe in the power of bicycles because they provide the mobility that allows individuals and small industries to be more efficient in what they do. Whether transportation of goods or faster commutes; bicycles have been proven as invaluable. Movement Bikes aims to distribute **high quality** bicycles at **affordable** prices. We want to work with local communities to make an impact and create the best product for the people.

sarahobamabike

Movement Bikes is excited to present its first bicycle this fall; calling it *sarahobamabike*. We will launch with our pilot project in Kisumu, Kenya. After meeting Mrs. Sarah Obama, she gave us permission to name the first container of bikes after her, to highlight what the Obama family has done for Kenya. On the left you see our featured cargo bike.

Bicycles change lives.
